

VolunTravel in Kenya.

Volunteers can either spend 1-12 weeks on any one of the projects or combine it with their safari travel. We ensure that volunteers involved enjoy a totally unique experience all year round not just summer. The programs includes teaching in remote rural primary and secondary schools, work in Kenyan children orphanages giving hope to the needy children, environmental conservation, working as community health worker in hospital, assisting in administrative work and many more as per the interest of volunteers.
